ABOUT **project mobility**

Changing lives one bike at a time

Project Mobility was founded in 2002 by Hal Honeyman. Project Mobility is the nonprofit arm of The Bike Rack in St. Charles. Hal's son Jacob was born with cerebral palsy. Hal wanted to find a way for Jacob to join the family when bicycle riding. After Jacob's needs were met, Hal realized there was a huge demand for adaptive cycling, which led to the formation of Project Mobility.

Our mission is to make a positive difference in the lives of children, adults, and wounded soldiers with disabilities, autism and cancer. Through adaptive cycling, we provide the services, resources, and equipment to promote better health, independence, and freedom of mobility.

Our specialized bikes create a sense of freedom for those who are disabled, removing the perceived limitations of disability.

Adaptive bikes provide life-changing mobility, strength, self-esteem and freedom for children, adults, and veterans with disabilities and cancer. Cycling restores possibilities to those often told by society that their life is about limitations. Bike costs range from \$3,000 to \$6,000, depending on the abilities of the individual.

ABOUT THE EVENT

A multi-course al fresco waterfront dinner highlighting local St. Charles restaurants

Long Table Dinner Raises Vital Funds for Project Mobility

Project Mobility is partnering with St. Charles restaurants to prepare one course to be featured at Long Table Dinner event. This is a great way to sample offerings from some of the city's best restaurants while supporting a great local cause.

Guests are asked to wear "Summer Whites" to represent their support for Project Mobility.

The event will feature a Champagne Hour followed by dinner featuring live music, a silent auction and an Adaptive Bike Giveaway by Project Mobility. Guests will get to see first-hand what Project Mobility is all about and where the money we raise goes.

ADAPTIVE BIKE

Sponsor

\$6,500

Sponsor Perks

- Company branded adaptive bike

Branding a bike is not only a great form of advertising, it is a way to show communities you support them. A feel-good story is great for any business to show their values and strengths as a team. The adaptive bikes are all tailor-made to the individual leaving lots of room for branding customization along the way. Everything from embroidery to nameplates to spoke covers to flags and more can be customized to your brand. The goal is to make the rider's dream come true and to make the business' vision a reality.
