ABOUT project mobility

Changing lives one bike at a time

Project Mobility was founded in 2002 by Hal Honeyman, whose son Jacob was born with cerebral palsy. Like any parent, Hal wanted his child to experience the simple joy of riding a bike alongside family and friends. When traditional options fell short, Hal created a solution—one that allowed Jacob to ride, explore, and feel the freedom every child deserves.

What began as a father's determination quickly revealed a much greater need. Families from across the community were searching for the same opportunity: a way for their loved ones to move freely, independently, and with confidence. **That need became the foundation of Project Mobility.**

Today, Project Mobility transforms lives by serving children, adults, and wounded soldiers living with disabilities, autism, and cancer.

Through adaptive cycling, we provide specialized bikes, resources, and support that restore mobility, improve health, and unlock independence. An adaptive bike is more than equipment—it's freedom. It breaks down perceived limitations, builds confidence, and opens doors to experiences many thought were out of reach. With the support of our sponsors, Project Mobility continues to give riders the priceless gift of movement, dignity, and possibility.

ABOUT THE EVENT

An elegant waterfront dining experience featuring a multi-course menu by St. Charles restaurants

An Evening at the Table for a Greater Purpose

Set along the waterfront, the Long Table Dinner is an open-air, multi-course dining experience celebrating the vibrant St. Charles food scene. Talented local restaurants will each contribute a signature course, creating a one-night-only menu that showcases the best of the city.

Guests are invited to dress in Summer Whites as a symbol of their support for Project Mobility.

The night kicks off with a Bubbles & Brews cocktail reception, followed by dinner, live music, and a silent auction. The evening will also feature an Adaptive Bike Giveaway, offering a powerful, firsthand look at Project Mobility's mission and the life-changing impact of the funds raised.

Sponsor Perks

- Company branded adaptive bike

Branding a bike is not only a great form of advertising, it is a great way to show community support. A feel-good story is great for any business to show their values and strengths as a team. The adaptive bikes are all tailor-made to the individual leaving lots of room for branding customization along the way. Everything from embroidery to nameplates to spoke covers to flags and more can be customized to your brand. The goal is to make the rider's dream come true and to make the business' vision a reality.
